AHMEDBAIG S. INAMDAR

Full Stack Developer (Java) with AI and ML

Email Id: ahmedbaig.inamdar@gmail.com
Contact Number: +91 9845169109
Address: Pune, Maharashtra, India
LinkedIn: https://www.linkedin.com/in/ahmedbaig-inamdar-678628365
Github: https://github.com/ahmedbaiginam-stack

PROFESSIONAL SUMMARY

Full Stack Developer with strong expertise in Java, Python, Spring Boot, React, and RESTful APIs, experienced in building scalable, secure, and high-performance web applications. Proficient in backend development, database design, and responsive frontend implementation with hands-on project experience in real-world applications. Solid foundation in Data Structures & Algorithms and software engineering principles. Passionate about Artificial Intelligence and Machine Learning, focused on developing intelligent, real-world solutions while continuously improving technical excellence.

Educational Details

Course	Year Of Passing	University/Board	Percentage/CGPA
BE	2021-2025	Visvesvaraya Technological University, Belagavi	7.64
PUC	2021	Karnataka State Board	68.80
SSLC	2019	Karnataka State Board	80.80

Projects

❖ Mirza-Brand (E-Commerce Web Application)

- Developed a full-stack e-commerce platform using Java, Spring Boot, React, and PostgreSQL.
- Implemented secure user authentication and role-based access control.
- Managed 110+ products including watches, eyewear, and apparel.
- Designed relational database schema for inventory and order management.
- Deployed backend database on cloud (Render).

❖ Helpr (Service Booking Platform)

- Built a full-stack service booking platform using React, Spring Boot, and SQL.
- Integrated Google Maps API for location-based service discovery.
- Implemented role-based access (Customer, Service Provider, Admin).
- Designed RESTful APIs for bookings and service management.

❖ Portfolio Website

- Developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Implemented dark mode, animations, and interactive UI components.
- Designed contact form and project showcase section.

❖ **Universal offline voice monitor automation** (Major Project)

- Designed a voice-controlled automation system using ESP32, VC02, and Triac to TTL modules.
- Enabled hands-free control of electrical devices.
- Improved automation efficiency in industrial and household applications.

Technical Skill

- Programming Language
  - Java, Python, JavaScript
- Frontend Technologies
  - HTML, CSS, Reactjs, Angular
- Backend Technologies
  - Spring, Spring-Boot, Hibernate, Nodejs
- Databases
  - SQL, MongoDB, HQL
- Core Concepts
  - Data Structures & Algorithms (DSA), REST APIs, Authentication & Authorization, OOPs
- AI & ML
  - Machine Learning Basics, Artificial Intelligence Concepts
- Tools
  - Eclipse IDE, Visual Studio, Oracle SQL Developer, Github, Microsoft Office (Excel, PowerPoint, Word)

- Other Technology
  - VLSI design, PLC, IOT, HML

Experience

- Full Stack Developer (Java) with AI & ML
  Duration: July 2025 – February 2025 (8 Months)
- VLSI Design Internship – Rooman Technology
  Duration: September 2024 – February 2025 (4 Months)

Certificates

- Full stack developer (Java) with AI and MI
- VLSI Design (Very Large-Scale Integration)
- IoT (Internet of Things),
- PLC and HMI
- Participated in Project competition KSCST (Karnataka State Council for Science and Technology)
- Rooman Technology Life Skills 2.0
- Secured 2nd Position in project competition
- Training – Course in MATLAB

Interest

- Reading Books, Problem Solving, Learning New Technologies, Playing Sports.

Personal Details

- Date of Birth : 14/03/2003
- Gender : Male
- Marital Status : Unmarried
- Languages : English, Hindi, Kannada
